

SmartSpace

Open on Two Sides – Design Example 2

What Is Included in The Package?

Suitable for stands of 12sqm – 25sqm

If you wish to look at the possibility of using this design on a different sized space, please contact us for feasibility

A Guide to choosing Open on Two Sides Design Example 2

1. This design does not include a raised platform floor for stands sized 12sqm – 17sqm. There may be instances where electrical or other service cables are visible on the floor. If you prefer to hide these cables, we advise upgrading to a 'Raised Platform Floor'. Please request an Exhibitor Pack for your event for prices of upgrades.
2. It is possible to amend the design to turn the semi private meeting space into either a private meeting space or storage room by adding a door section. Please request an Exhibitor Pack for your event for prices of upgrades.
3. The long counter to the left side does not include lockable access or a shelf inside. It is possible to upgrade to add a shelf and lockable doors.
4. If you choose to position electrical sockets inside these counters, we will add cable management holes to the worktops
5. It is possible to move the print space from the curve to a flat section of the fascia. It is also possible to upgrade the print allowance and have prints on both sides of the flat fascia

12sqm – 13sqm 1no Long Arm Spotlight 1no Print allowance to fascia curve	14sqm – 15sqm 2no Long Arm Spotlights 1no Print allowance to fascia curve
16sqm – 17sqm 2no Long Arm Spotlights 1no Print allowance to fascia curve 1no Single Socket 500w*	18sqm – 19sqm Raised platform floor 2no Long Arm Spotlights 1no Print allowance to fascia curve 1no Single Socket 500w*
20sqm – 21sqm Raised platform floor 3no Long Arm Spotlights 1no Print allowance to fascia curve 1no Single Socket 500w*	22sqm – 23sqm Raised platform floor 4no Long Arm Spotlights 1no Print allowance to fascia curve 1no Single Socket 500w*

24sqm – 25sqm

Raised platform floor
4no Long Arm Spotlights
1no Print allowance to fascia curve

What Should I do Now?

1. If you have chosen your design, click the link to email your design to us, along with any notes requesting changes to the design
2. Wait 5 – 10 days for a new set of illustrations to be sent to you
3. Confirm the new set of illustrations to complete your order, or request more changes (Up to 4no new sets of illustrations are allowed and provided free of charge)

General Notes for All SmartSpace Designs

- a) Please ensure you check the number of lights, prints and electrical sockets in the package. If you think you will require more, please inform us.
- b) You are able to choose the colours of the carpet and raised fascia of your design. We offer a range of standard colours – please see [Additional_Items_Walling_And_Floorcovering PDF](#) available from the Download Centre
- c) It is possible for you to request the printing of a specific Pantone to the walling, counters or fascia. This will incur an additional cost – please contact us for prices
- d) All walling is supplied white as standard – it is possible to upgrade to make the panel a different colour, or to add printed artworks to it
- e) If you wish to move, add or delete any element of the stand design, please contact us for feasibility. Where it is not structurally possible to carry out your request, we will recommend an alternative.

Is SmartSpace the best solution for your stand build? If you can answer yes to the below, SmartSpace is perfect for you!

- a) Have you confirmed your space booking and returned your contract?
- b) Do you have the budget for the SmartSpace package price?
- c) Have you been informed by your sales contact about Additional Items?
- d) Do you have the budget for the Additional Items you require?
